Magical Transformations on the Early Modern English Stage-Lisa Hopkins 2016-05-13 Magical Transformations on the Early Modern Stage furthers the debate about the cultural work performed by representations of magic on the early modern English stage. It considers the ways in which performances of magic reflect and feed into a sense of national identity, both in the form of magic contests and in its recurrent linkage to national defence; the extent to which magic can trope other concerns, and what these might be; and how magic is staged and what the representational strategies and techniques might mean. The essays range widely over both canonical plays-Macbeth, The Tempest, The Winter’s Tale, The Merry Wives of Windsor, Doctor Faustus, Bartholomew Fair-and notably less canonical ones such as The Birth of Merlin, Fedele and Fortunio, The Merry Devil of Edmonton, The Devil is an Ass, The Late Lancashire Witches and The Witch of Edmonton, putting the two groups into dialogue with each other and also exploring ways in which they can be profitably related to contemporary cases or accusations of witchcraft. Attending to the representational strategies and self-conscious intertextuality of the plays as well as to their treatment of their subject matter, the essays reveal the plays they discuss as actively intervening in contemporary debates about witchcraft and magic in ways which themselves effect transformation rather than simply discussing it. At the heart of all the essays lies an interest in the transformative power of magic, but collectively they show that the idea of transformation applies not only to the objects or even to the subjects of magic, but that the plays themselves can be seen as working to bring about change in the ways that they challenge contemporary assumptions and stereotypes.

The Oxford Guide to Etymology-Philip Durkin 2011-07-07 This practical introduction to word history investigates every aspect of where words come from and how they change. Philip Durkin, chief etymologist of the Oxford English Dictionary, shows how different types of evidence can shed light on the myriad ways in which words change in form and meaning. He considers how such changes can be part of wider linguistic processes, or be influenced by a complex mixture of social and cultural factors. He illustrates every point with a wide range of fascinating examples. Dr Durkin investigates folk etymology and other changes which words undergo in everyday use. He shows how language families are established, how words in different languages can have a common ancestor, and the ways in which the latter can be distinguished from words introduced through language contact. He examines the etymologies of the names of people and places. His focus is on English but he draws many examples from languages such as French, German, and Latin which cast light on the pre-histories of English words. The Oxford Guide to Etymology is reliable, readable, instructive, and enjoyable. Everyone interested in the history of words will value this account of an endlessly fascinating subject.
